Diverse Narratives of Legal Objectivity Vito Breda,Lidia Rodak.2016 This collection of essays discusses the role of objectivity in legal discourse. The analysis focuses on objectivity at the macro and micro levels, which are objectivity of law and in law. Results show that the Cartesian paradigm of objectivity is not relevant to the current legal discourse, and new forms of legal objectivity are revealed instead.

La Justice en Question? Experience d'une Mediatrice Janie Bugnion.2015-03-19 Le glaive, la balance et les yeux bandés sont les symboles de la Justice. Force est de constater que la procédure judiciaire ne répond pas toujours à l'attente : « Que justice soit faite ». C'est de cette constatation que la médiation pénale est née en France en 1984 sous l'impulsion de Robert Badinter, Garde des Sceaux. Après une étude comparative de divers modèles de médiation, cet ouvrage analyse la mise en œuvre du modèle de la médiation humaniste développé par Jacqueline Morineau à la lumière de concepts empruntés aussi bien à la sociologie et à l'anthropologie qu'à la psychologie, à la linguistique, à la philosophie et au droit. Ce livre dégage le sens que revêt la médiation dans ce modèle, celui d'un processus ritualisé conduit par la médiatrice ou le médiateur, qui utilise le conflit comme un objet transitionnel pour guider les parties dans une triple traversée, à travers les lieux, les discours et les visions du monde. Il montre comment la médiation permet de répondre à la souffrance engendrée par le conflit en mettant en œuvre une éthique reconstructive de reconnaissance et une éthique procédurale de discussion. La médiation n'apporte pas de solution toute faite, elle ouvre une porte et éclaire le chemin. 2ème édition, mise à jour et augmentée de trois nouveaux articles.

American Creoles Martin Munro,Celia Britton.2012-05-25 This book examines the cultural, social, and historical affinities between the Francophone Caribbean and the American South, considering figures as diverse as Barack Obama, Frantz Fanon, Miles Davis, James Brown, Edouard Glissant, William Faulkner, Maryse Condé and Lafcadio Hearn.

Imaginative Communities Robert Govers.2018-09-10 Americans are loud. Amsterdam equals sex, drugs, and rock & roll. Mexicans are lazy and Germans are boring, but punctual. Paris is romantic, Wuhan infectious, Ukrainians heroic, and New Zealand untouched. This is the way people around the world think about cities, regions and countries and the communities that live there; through clichés and stereotypes. It can be frustrating and hindering trade, diplomacy, investment, tourism, or talent attraction. Many believe that such image problems can be resolved with advertising campaigns, but the classic tourism promotion model is broken and insufficient. This book explains what works and what doesn't when it comes to improving the reputation of cities, regions, and countries. It does so without the use of jargon and with reference to numerous case-studies. The book primarily aims to inspire readers and offer them a broad overview of an issue in modern society that is of interest and relevance to all of us: the reputation of our communities.

Referral to Mediation Machteld Pel.2008 This book provides valuable advice for sound conflict diagnosis and a professional mediation proposal, along with many practical hints and tips based on years of experience and research. Mediation in the right situations can resolve conflicts effectively. The facilitating role played by referrers is crucial. The art of referral deserves to be on the skills palette of professionals who deal with other people's conflicts in their everyday work, whether they are managers, lawyers, judges, or HR staff. They should all be able to identify opportunities for an effective mediation proposal. Research has shown that a decision to proceed to mediation is best taken in consultation with the parties to the conflict. The consultation should be preceded by a thorough diagnosis of the conflict, an investigation of the parties' interests in finding a solution by mutual agreement, and a review of the available options.

Bounded Choice Janja A. Lalich.2020-11-30 Heaven's Gate, a secretive group of celibate monks awaiting pickup by a UFO, captured intense public attention in 1997 when its members committed collective suicide. As a way of understanding such perplexing events, many have seen those who join cults as needy, lost souls, unable to think for themselves. This book, a compelling look at the cult phenomenon written for a wide audience, dispels

such simple formulations by explaining how normal, intelligent people can give up years of their lives—and sometimes their very lives—to groups and beliefs that appear bizarre and irrational. Looking closely at Heaven's Gate and at the Democratic Workers Party, a radical political group of the 1970s and 1980s, Janja Lalich gives us a rare insider's look at these two cults and advances a new theoretical framework that will reshape our understanding of those who join such groups. Lalich's fascinating discussion includes her in-depth interviews with cult devotees as well as reflections gained from her own experience as a high-ranking member of the Democratic Workers Party. Incorporating classical sociological concepts such as charisma and commitment with more recent work on the social psychology of influence and control, she develops a new approach for understanding how charismatic cult leaders are able to dominate their devotees. She shows how members are led into a state of bounded choice, in which they make seemingly irrational decisions within a context that makes perfect sense to them and is, in fact, consistent with their highest aspirations. In addition to illuminating the cult phenomenon in the United States and around the world, this important book also addresses our pressing need to know more about the mentality of those true believers who take extreme or violent measures in the name of a cause.

Business Ethics in Biblical Perspective Michael E. Cafferky.2015-08-19 It is legal for CEOs to make 300 times the amount of the average worker. But is this fair and just? Is it ethical for a customer to purchase a digital camera for the sole purpose of using it on a ski trip and then return the item to the store afterwards? Should companies who purchase advertising space on websites that offer pirated videos for download be held accountable for breaking intellectual property laws? The world of business is fraught with ethical challenges. Some of these are relatively straightforward, but others are complicated and require careful reflection. While there are numerous theories to help people navigate these dilemmas, the goal of this book is to provide a comprehensive biblical perspective on contemporary issues in areas such as consumer behavior, management, accounting and marketing. In *Business Ethics in Biblical Perspective*, Michael E. Cafferky explores the biblical resources for moral guidance and ethical consideration. He identifies twelve key themes in the narrative of Scripture: cosmic conflict, creation, holiness, covenant relationships, shalom, sabbath, justice, righteousness, truth, wisdom, loving kindness and redemption. By looking at ethical approaches and issues through this multifaceted biblical perspective, Cafferky helps readers appreciate the complex nature of ethical decision making, particularly in the context of business and finance. Designed from the start with the classroom in mind, each chapter of *Business Ethics in Biblical Perspective* provides example scenarios, questions for intrapersonal and interpersonal ethical reflection, review questions, ethical vignettes for discussion and an exploration of the chapter material in light of the biblical themes. Additional IVP Instructor Resources are also available.

Restoring Justice Daniel W. Van Ness, Karen Heetderks Strong.2014-02-01 *Restoring Justice: An Introduction to Restorative Justice* offers a clear and convincing explanation of restorative justice, a movement within criminal justice with growing worldwide influence. It explores the broad appeal of this new vision and offers a brief history of its development. The book presents a theoretical foundation for the principles and values of restorative justice and develops its four cornerpost ideas of encounter, amends, inclusion and reintegration. After exploring how restorative justice ideas and values may be integrated into policy and practice, it presents a series of key issues commonly raised about restorative justice, summarizing various perspectives on each.

European Convention on the Adoption of Children (revised) Council of Europe.2009 The aim of the European Convention on the Adoption of Children (revised) (CETS No. 202) is to set out a collection of legal rules aimed at harmonising the adoption of children in Europe according to the core principles of the Council of Europe. The convention takes account of the social and legal developments of recent years as well as the case law of the European Court of Human Rights. It underlines that the best interests of the child must always take precedence over any other considerations

Ru Kim Thúy.2012-01-17 A runaway bestseller in Quebec, with foreign rights sold to 15 countries around the world, Kim Thúy's Governor General's Literary Award-winning *Ru* is a lullaby for Vietnam and a love letter to a new homeland. *Ru*. In Vietnamese it means lullaby; in French it is a small stream, but also signifies a flow - of tears, blood, money. Kim Thúy's *Ru* is literature at its most crystalline: the flow of a life on the tides of unrest and on to more peaceful waters. In vignettes of exquisite clarity, sharp observation and sly wit, we are carried along on an unforgettable journey from a palatial residence in Saigon to a crowded and muddy Malaysian refugee camp, and onward to a new life in Quebec. There, the young girl feels the embrace of a new community, and revels in the chance to be part of the American Dream. As an adult, the waters become rough again: now a mother of two sons, she must learn to shape her love around the younger boy's autism. Moving seamlessly from past to present, from history to memory and back again, *Ru* is a book that celebrates life in all its wonder: its moments of beauty and sensuality, brutality and sorrow, comfort and comedy.

Traumatic Narcissism Daniel Shaw.2013-09-23 In this volume, *Traumatic Narcissism: Relational Systems of Subjugation*, Daniel Shaw presents a way of understanding the traumatic impact of narcissism as it is engendered developmentally, and as it is enacted relationally. Focusing on the dynamics of narcissism in interpersonal relations, Shaw describes the relational system of what he terms the 'traumatizing narcissist' as a system of subjugation - the objectification of one person in a relationship as the means of enforcing the dominance of the subjectivity of the other. Daniel Shaw illustrates the workings of this relational system of subjugation in a variety of contexts: theorizing traumatic narcissism as an intergenerationally transmitted relational/developmental trauma; and exploring the clinician's experience working with the adult children of traumatizing narcissists. He explores the relationship of cult leaders and their followers, and examines how traumatic narcissism has lingered vestigially in some aspects of the psychoanalytic profession. Bringing together theories of trauma and attachment, intersubjectivity and complementarity, and the rich clinical sensibility of the Relational Psychoanalysis tradition, Shaw demonstrates how narcissism can best be understood not merely as character, but as the result of the specific trauma of subjugation, in which one person is required to become the object for a significant other who demands hegemonic subjectivity. *Traumatic Narcissism* presents therapeutic clinical opportunities not only for psychoanalysts of different schools, but for all mental health professionals working with a wide variety of modalities. Although primarily intended for the professional psychoanalyst and psychotherapist, this is also a book that therapy patients and lay readers will find highly readable and illuminating.

The Psychology of Working David Blustein.2013-01-11 In this original and major new work, David Blustein places working at the same level of attention for social and behavioral scientists and psychotherapists as other major life concerns, such as intimate relationships, physical and mental health, and socio-economic inequities. He also provides readers with an expanded conceptual framework within which to think about working in human development and human experience. As a result, this creative new synthesis enriches the discourse on working across the broad spectrum of psychology's concerns and agendas, and especially for those readers in career development, counseling, and policy-related fields. This textbook is ideal for use in graduate courses on counseling and work or vocational counseling.

Althusser and Law Laurent De Sutter.2013 *Althusser & Law* is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to *Althusser and Law* argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

Phenomenology of Perception Maurice Merleau-Ponty.1996 Buddhist philosophy of Anicca (impermanence), Dukkha (suffering), and *Children's Spirituality* Rebecca Nye.2014-08-04 An introduction to the increasingly popular topic of children's spirituality, showing how choices made in churches and homes can stimulate or stifle a child's spiritual development. The World of the Salons Antoine Lilti.2015 The world of the 18th century salon has long been lauded as a meritocratic setting where writers, philosophers, and women created the Enlightenment. Based on a thorough study of archival sources and using methodology derived from cultural

history, social history, and the history of literature, *The World of Salons* proposes a completely new reading of salons' sociability in eighteenth-century Paris. It challenges the commonly accepted vision of salons as literary circles that were part of the Republic of Letters. It argues, instead, that salons were institutions of worldly sociability, had helped shape 'the world' (le monde) and high society. They have been essential places where the aristocratic elites of the capital met and interacted with literary figures. These interactions based on the mastery of the codes of polite conversation but also on the circulation of news and of personal reputations are the subject of this book. *The World of the Salon* looks at the way in which eighteenth-century social elites redefined themselves through their practices of worldly sociability. It highlights why some men of letters of the Enlightenment attended the salons. Moving from the salons to worldliness permits taking on some broader debates as well. What relations did worldly sociability maintain with the public sphere? How did the Parisian nobility use the idea of worldly merit and the figure of the man of the world (homme du monde) to preserve its social preeminence? Was the new political culture characterized by an appeal to the public compatible with the monarchical apparatus and with court intrigues? *The World of the Salons* is suitable for an Anglophone audience of early modern European cultural, political, and intellectual historians--Provided by publisher.

Male Roles, Masculinities and Violence Ingeborg Breines, Raewyn Connell, Ingrid Eide, Unesco. 2000 This book is based on an expert group meeting entitled 'Male Roles and Masculinities in the Perspective of a Culture of Peace', which was organised by UNESCO in Oslo, Norway in 1997, the first international discussion of the connections between men and masculinity and peace and war. The group consisted of researchers, activists, policy makers and administrators and the aim of the meeting was to formulate practical suggestions for change. Chapters in the book consist of both regional case studies and social science research on the connections of traditional masculinity and patriarchy to violence and peace building. The Culture of Peace initiatives in this book show how violence is ineffective, and the book contests the views in the socialisation of boy-children that aggressiveness, violence and force are an acceptable means of expression.

Dynamics in the French Constitution David Marrani. 2013-10-08 The promulgation of the Fifth French Republic Constitution in 1958 marked the end of a complex constitutional history that has since 1789 seen more than twenty constitutions and five Republics. Lasting now for more than fifty years, the Fifth Republic Constitution has proven to be the right settlement for the French people; a consensual text. However, while offering the appearance of stability, the Fifth French Republic Constitution has often been reconsidered and changed, not least in the year of its fiftieth anniversary, when the Constitution was 'modernised'. These dynamics of the Fifth Republic Constitution are neither a recent matter nor entirely the result of the successive constitutional amendments. Instead, the history of the Constitution has involved the resurgence of repressed archaic elements from the ancient regime, while the social, economic and environmental contexts have penetrated not only the text itself but more extensively its spirit, and behind it, the philosophy and our perception of the Republic. In *Dynamics in the French Constitution*, David Marrani questions the foundations of the French Fifth Republic. In using specific themes, current and traditional debates, contemporary and archaic factors, that have enlightened the road of long lasting Republic, the book explores some of the changes of the last fifty years and the tensions that are present within the constitutional text. In combining theoretical concepts of constitutional law with key contemporary and historical developments, such as the European integration, the response to environmental challenges, the practice of human rights and the pillars supporting French republicanism, this book offers varied and creative tools for a better understanding of the Republic of today.

Bridging the Cultural Divide . 1996 In this report we review the historical and contemporary record of Aboriginal people's experience in the criminal justice system to secure a better understanding of what lies behind their over-representation there. Our mandate requires us to do more, of course, than provide a framework of understanding. It also charges us with providing a framework for change. That framework has two distinctive yet inter-related dimensions. The first dimension is the reform of the existing criminal justice system to make it more respectful of and responsive to the experience of Aboriginal people; the second dimension is the establishment of Aboriginal justice systems as an exercise of the Aboriginal right of self-government--Preface, p. xi-xii.

Task Design In Mathematics Education Anne Watson, Minoru Ohtani. 2015-10-26 *THIS BOOK IS AVAILABLE AS OPEN ACCESS BOOK ON SPRINGERLINK* This open access book is the product of ICMI Study 22 Task Design in Mathematics Education. The study offers a state-of-the-art summary of relevant research and goes beyond that to develop new insights and new areas of knowledge and study about task design. The authors represent a wide range of countries and cultures and are leading researchers, teachers and designers. In particular, the authors develop explicit understandings of the opportunities and difficulties involved in designing and implementing tasks and of the interfaces between the teaching, researching and designing roles - recognising that these might be undertaken by the same person or by completely separate teams. Tasks generate the activity through which learners meet mathematical concepts, ideas, strategies and learn to use and develop mathematical thinking and modes of enquiry. Teaching includes the selection, modification, design, sequencing, installation, observation and evaluation of tasks. The book illustrates how task design is core to effective teaching, whether the task is a complex, extended, investigation or a small part of a lesson; whether it is part of a curriculum system, such as a textbook, or promotes free standing activity; whether the task comes from published source or is devised by the teacher or the student.

The New Lawyer Julie MacFarlane. 2008-05-20 Today's justice system and the legal profession have rendered the lawyer-warrior notion outdated, shifting toward conflict resolution rather than protracted litigation. The new lawyer's skills go beyond court battles to encompass negotiation, mediation, collaborative practice, and restorative justice. In *The New Lawyer*, Julie Macfarlane explores the evolving role of practitioners, articulating legal and ethical complexities in a variety of contexts. The result is a thought-provoking exploration of the increasing impact of alternative strategies on the lawyer-client relationship, as well as on the legal system itself.

Lifestyle Migration Michaela Benson. 2016-05-06 Relatively affluent individuals from various corners of the globe are increasingly choosing to migrate, spurred on by the promise of a better and more fulfilling way of life within their destination. Despite its increasing scale, migration academics have yet to consolidate and establish lifestyle migration as a subfield of theoretical enquiry, until now. This volume offers a dynamic and holistic analysis of contemporary lifestyle migrations, exploring the expectations and aspirations which inform and drive migration alongside the realities of life within the destination. It also recognizes the structural conditions (and constraints) which frame lifestyle migration, laying the groundwork for further intellectual enquiry. Through rich empirical case studies this volume addresses this important and increasingly common form of migration in a manner that will interest scholars of mobility, migration, lifestyle and culture across the social sciences.

Vocational Rehabilitation Charles Gobelet, Franco Franchignoni. 2006-01-02 It gives us great pleasure to write the preface to this book, the second in the series of monographs produced by the European Academy of Rehabilitation Medicine. No part of medicine, no clinical intervention, is complete without thinking about its effect on the person's life and the quality thereof. One of the most powerful determinants of this is work; a source not only of income, but of satisfaction and a sense of purpose and worth. The Academy, founded in 1969, is composed of senior European doctors specialising in Rehabilitation and Physical Medicine. It meets regularly to discuss matters of importance in the field, including teaching, research and ethical matters. It recognises that the ability of the speciality and of related ones to decrease dependency and increase autonomy and quality of life needs to be better known. Hence the production of these monographs. They will help readers access a vast amount of literature on the practice of rehabilitation and its effectiveness. They should be particularly useful to young doctors preparing for the European Boards certification in Physical and Rehabilitation Medicine as they are authoritative and cover subjects in depth. Topics covered in the series range from basic sciences to the most applied areas.

Legal Certainty in Real Estate Transactions Bertrand Du Marais,David Marrani.2016 This comparative research was triggered by the assessment of property registration law published in the World Bank Doing Business reports (DB). The international and interdisciplinary team aimed to assess how legal certainty was imagined and put into practice in French and English law, using commercial real estate as a case study. Not only does this study identify the economic impact of the law in both jurisdictions, it also looks at the practitioners' functions in dealing with commercial real estate transactions. In other words, it analyzes the topical position of practitioners, such as the French notaires and the role of solicitors in England. Nowadays, the profession of notaires is confronted by numerous challenges. For instance, nationality requirement for its access has been ruled by the ECJ as contrary to the freedom of establishment and article 49 TFEU, and not justified by the exercise of public authority. In this study, the authors argue that the actual nature and the quality of the work done by the practitioners should be considered, as well as financial cost and delays. They also argue that a liberalization of professions, such as civil law notaires, would have very little impact on the cost associated with doing business. As a matter of fact, both the English and the French mechanisms are very similar in their objectives and outcome even though they handle the same transaction differently because of the culturally different relevant angles. Practicing Narrative Mediation John Winslade,Gerald D. Monk.2008-09-22 Practicing Narrative Mediation provides mediation practitioners with practical narrative approaches that can be applied to a wide variety of conflict resolution situations. Written by John Winslade and Gerald Monk—leaders in the narrative therapy movement—the book contains suggestions and illustrative examples for applying the proven narrative technique when working with restorative conferencing and mediation in organizations, schools, health care, divorce cases, employer and employee problems, and civil and international conflicts. Practicing Narrative Mediation also explores the most recent research available on discursive positioning and exposes the influence of the moment-to-moment factors that are playing out in conflict situations. The authors include new concepts derived from narrative family work such as absent but implicit, double listening, and outsider-witness practices.

Terror, Love and Brainwashing Alexandra Stein.2016-11-03 Written by a cult survivor and renowned expert on cults and totalitarianism, *Terror, Love and Brainwashing* draws on the author's 25 years of study and research to explain how almost anyone, given the right set of circumstances, can be radically manipulated to engage in otherwise incomprehensible and often dangerous acts. Illustrated with compelling stories from a range of cults and totalitarian systems, from religious to political to commercial, the book defines and analyses the common and identifiable traits that underlie almost all these groups. It focuses on how charismatic, authoritarian leaders control their followers' attachment relationships via manipulative social structures and ideologies so that, emotionally and cognitively isolated, they become unable to act in their own survival interests. Using the evolutionary theory of attachment to demonstrate the psychological impact of these environments, and incorporating the latest neuroscientific findings, Stein illustrates how the combined dynamic of terror and 'love' works to break down people's ability to think and behave rationally. From small local cults to global players like ISIS and North Korea, the impact of these movements is widespread and growing. This important book offers clarity and a unique perspective on the dynamics of these systems of control, and concludes with guidance to foster greater awareness and prevention. It will be essential reading for mental health professionals in the field, as well as policy makers, legal professionals, cult survivors, and their families, as well as anyone with an interest in these disturbing groups. Students of social and developmental psychology will also find it fascinating.
