**The Routledge International Handbook of Language Education Policy in Asia** Andy Kirkpatrick, Anthony J. Liddicoat. 2019-04-17 This must-have handbook offers a comprehensive survey of the field. It reviews the language education policies of Asia, encompassing 30 countries sub-divided by regions, namely East, Southeast, South and Central Asia, and considers the extent to which these are being implemented and with what effect. The most recent iteration of language education policies of each of the countries is described and the impact and potential consequence of any change is critically considered. Each country chapter provides a historical overview of the languages in use and language education policies, examines the ideologies underpinning the language choices, and includes an account of the debates and controversies surrounding language and language education policies, before concluding with some predictions for the future.

**Family Language Policies in a Multilingual World** John Macalister, Seyed Hadi Mirvahedi. 2016-12-19 Through case studies from around the world, this book illustrates the opportunities and challenges facing families negotiating the issues of language maintenance and language learning in the home. Every family living in a bi/multilingual environment faces the question of what language(s) to speak with their children and must make a decision, consciously or otherwise, about these issues. Exploring links between language policy in the home and wider society in a range of diverse settings, the contributors utilize various research tools, including interviews, questionnaires, observations, and archival document analysis, to explore linguistic ideologies and practices of family members in the home, illuminating how these are shaped by

macro-level societal processes.

Heritage Language Policies around the World Corinne A. Seals, Sheena Shah. 2017-09-18 Heritage language policies define the context in which heritage languages are maintained or abandoned by communities, and this volume describes and analyzes international policy strategies, as well as the implications for the actual heritage language speakers. This volume brings together heritage language policy case studies from around the world, foregrounding globalization by covering five regions: the Americas, Europe, Africa, Asia, and Australasia. The countries profiled include the United States, Canada, Argentina, Norway, Sweden, Ireland, Uganda, Namibia, Morocco, Japan, South Korea, Singapore, New Zealand, Australia, and Fiji. This volume also highlights an expanded definition of 'heritage language', choosing to focus on individual and community identities, and therefore including both Indigenous and immigrant languages. Focusing specifically on language policy relating to heritage languages, the chapters address key questions such as Are heritage languages included or excluded from the national language policy discourse? What are the successes and shortcomings of efforts to establish heritage language policies? What is the definition of 'heritage language' in official usage by the local/regional government and stakeholders? How are these language policies perceived by the actual heritage language communities?

**Transformative Pedagogical Perspectives on Home Language Use in Classrooms** Jules, Janice E., Belgrave, Korah L. 2020-09-25 Linguists, researchers, and other practitioners in language education acknowledge that the resolution of language problems associated with breaking down language and cultural barriers that hinder the growth of learners' self-identities and national identities is ongoing. In fact, even with decades of research in home language use in the classroom, there are still classrooms worldwide where learners are deprived of the opportunity of building their

self-esteem, confidence, and autonomy by communicating with their native language. The global nature of communication requires speakers to use all the languages in their repertoire effectively, thus reinforcing the need to encourage home language use in classrooms. Transformative Pedagogical Perspectives on Home Language Use in Classrooms is a cutting-edge research publication on the effective use of home language in the classroom that emphasizes the significance of this activity to the success of the overall language development of the learner. Particular attention is given to transformative pedagogy and the provision of valuable insights into how the teacher can guide and assist learners in the development of critical thinking skills. In addition, the book provides content that enables practitioners in language education and parents to explore their roles in assisting children in breaking down the language and cultural barriers that hinder the growth of their self-identity and national identity. Highlighting topics such as engineering education, cultural responsiveness, and transformative pedagogy, this book is essential for linguists, academicians, education professionals, curriculum designers, policymakers, administrators, instructional designers, researchers, and students.

*Knowledge-building* Karl Maton, Susan Hood, Suellen Shay. 2015-10-08 Education and knowledge have never been more important to society, yet research is segmented by approach, methodology or topic. Legitimation Code Theory or 'LCT' extends and integrates insights from Pierre Bourdieu and Basil Bernstein to offer a framework for research and practice that overcomes segmentalism. This book shows how LCT can be used to build knowledge about education and society. Comprising original papers by an international and multidisciplinary group of scholars, *Knowledge-building* offers the first primer in this fast-growing approach. Through case studies of major research projects, Part I provides practical insights into how LCT can be used to build knowledge by: - enabling dialogue between theory and data in qualitative research - bringing together quantitative and qualitative methodologies in mixed-methods research - relating theory and practice in praxis - conducting interdisciplinary studies with systemic functional linguistics Part II offers a series of studies of pressing issues facing knowledge-building in education and beyond, encompassing: - diverse subject areas, including physics, English, cultural studies, music, and design - educational sites: schooling, vocational education, and higher education - practices of research, curriculum, pedagogy and assessment - both education and informal learning contexts, such as museums and masonic lodges Carefully sequenced and interrelated, these chapters form a coherent collection that gives a unique insight into one of the most thought-provoking and innovative ways of building knowledge about knowledge-building in education and society to have emerged this century. This book is essential reading for all serious students and scholars of education, sociology and linguistics.

**Handbook of Early Language Education** Mila Schwartz. 2022-03-30 This is the first international and interdisciplinary handbook to offer a comprehensive and an in-depth overview of findings from contemporary research, theory, and practice in early childhood language education in various parts of the world and with different populations. The contributions by leading scholars and practitioners are structured to give a survey of the topic, highlight its importance, and provide a critical stance. The book covers preschool ages, and looks at children belonging to diverse ethno-linguistic groups and experiencing different histories and pathways of their socio-linguistic and socio-cultural development and early education. The languages under the scope of this handbook are identified by the contributors as immigrant languages, indigenous, endangered, heritage, regional, minority, majority, and marginalized, as well as foreign and second languages, all of which are discussed in relation to early language education as the key concept of the handbook. In this volume, “early language education” will refer to any kind of setting, both formal and informal (e.g. nursery, kindergarten, early childhood education centers, complementary early schooling etc.) in which language learning within a context of children's sociolinguistic diversity takes place before elementary school.

English-Medium Instruction and Translanguaging BethAnne Paulsrud, Zhongfeng Tian, Jeanette Toth. 2021-01-20 This book offers a critical exploration of definitions, methodologies and ideologies of English-medium instruction (EMI), contributing to new understandings of translanguaging as theory and pedagogy across diverse contexts. It brings together a number of conceptual and empirical studies on translanguaging in EMI at different educational levels, in a variety of countries, with different approaches to translanguaging, different named languages, and different policies. These studies include several underrepresented contexts across the globe, providing a broad view of how translanguaging in EMI is understood in these educational settings. Furthermore, this book addresses the complexities of translanguaging through a discussion of the affordances and constraints associated with the use of multiple linguistic resources in the EMI classroom.

*International Perspectives on English Language Teacher Education* T. Farrell. 2015-06-22 The chapters in this volume outline and discuss examples of teacher educators in diverse global contexts who have provided successful self-initiated innovations for their teacher learners. The collection suggests that a way forward for second language teacher preparation programs is through 'reflective practice as innovation'.

Urban Multilingualism in Europe Giuditta Caliendo, Rudi Janssens, Stef Slembrouck, Piet Van Avermaet. 2019-12-02 Today's growing mobility in European urban regions results in a more widespread language diversity, which is increasingly challenging current language policies. Against this background, this volume deals with the interface between language policy, language planning and actual practices. The impact that prevailing language policies have on language practices is observed in a series of urban settings, leading to a reflection on the changes that need to be brought about to promote social inclusion and valorise linguistic diversity in a context of globalisation-

affected and migration-related multilingualism. The topics of discussion draw on different theoretical perspectives and span the research fields of linguistics, education, (family) language policy and planning, language acquisition and sociology.

The languages of Malta Albert Gatt. The purpose of this volume is to present a snapshot of the state of the art of research on the languages of the Maltese islands, which include spoken Maltese, Maltese English and Maltese Sign Language. Malta is a tiny, but densely populated country, with over 422,000 inhabitants spread over only 316 square kilometers. It is a bilingual country, with Maltese and English enjoying the status of official languages. Maltese is a descendant of Arabic, but due to the history of the island, it has borrowed extensively from Sicilian, Italian and English. Furthermore, local dialects still coexist alongside the official standard language. The status of English as a second language dates back to British colonial rule, and just as in other former British colonies, a characteristic Maltese variety of English has developed. To these languages must be added Maltese Sign Language, which is the language of the Maltese Deaf community. This was recently recognised as Malta's third official language by an act of Parliament in 2016. While a volume such as the present one can hardly do justice to all aspects of a diverse and complex linguistic situation, even in a small community like that of Malta, our aim in editing this book was to shed light on the main strands of research being undertaken in the Maltese linguistic context. Six of the contributions in this book focus on Maltese and explore a broad range of topics including: historical changes in the Maltese sound system; syllabification strategies; the interaction of prosody and gesture; the constraints regulating /t/-insertion; the productivity of derivational suffixes; and raising phenomena. The study of Maltese English, especially with the purpose of establishing the defining characteristics of this variety of English, is a relatively new area of research. Three of the

papers in this volume deal with Maltese English, which is explored from the different perspectives of rhythm, the syntax of nominal phrases, and lexical choice. The last contribution discusses the way in which Maltese Sign Language (LSM) has evolved alongside developments in LSM research. In summary, we believe the present volume has the potential to present a unique snapshot of a complex linguistic situation in a geographically restricted area. Given the nature and range of topics proposed, the volume will likely be of interest to researchers in both theoretical and comparative linguistics, as well as those working with experimental and corpus-based methodologies. Our hope is that the studies presented here will also serve to pave the way for further research on the languages of Malta, encouraging researchers to also take new directions, including the exploration of variation and sociolinguistic factors which, while often raised as explanatory constructs in the papers presented here, remain under-researched.

**Multicultural America** Carlos E. Cortés. 2013-08-15 This comprehensive title is among the first to extensively use newly released 2010 U.S. Census data to examine multiculturalism today and tomorrow in America. This distinction is important considering the following NPR report by Eyder Peralta: “Based on the first national numbers released by the Census Bureau, the AP reports that minorities account for 90 percent of the total U.S. growth since 2000, due to immigration and higher birth rates for Latinos.” According to John Logan, a Brown University sociologist who has analyzed most of the census figures, “The futures of most metropolitan areas in the country are contingent on how attractive they are to Hispanic and Asian populations.” Both non-Hispanic whites and blacks are getting older as a group. “These groups are tending to fade out,” he added. Another demographer, William H. Frey with the Brookings Institution, told The Washington Post that this has been a pivotal decade. “We’re pivoting from a white-black-dominated American population to one that is multiracial

and multicultural.” Multicultural America: A Multimedia Encyclopedia explores this pivotal moment and its ramifications with more than 900 signed entries not just providing a compilation of specific ethnic groups and their histories but also covering the full spectrum of issues flowing from the increasingly multicultural canvas that is America today. Pedagogical elements include an introduction, a thematic reader’s guide, a chronology of multicultural milestones, a glossary, a resource guide to key books, journals, and Internet sites, and an appendix of 2010 U.S. Census Data. Finally, the electronic version will be the only reference work on this topic to augment written entries with multimedia for today’s students, with 100 videos (with transcripts) from Getty Images and Video Vault, the Agence France Press, and Sky News, as reviewed by the media librarian of the Rutgers University Libraries, working in concert with the title’s editors.

Refugee Learner Experiences. A Case Study of Zimbabwean Refugee Children Lawrence Meda.2017-09 This study is a presentation of Zimbabwean refugee learner experiences. Children escaped political persecution and economic problems which affected Zimbabwe in the year 2008. Many of these children were abused and witnessed traumatic experiences, their close relatives and neighbours being executed in cold blood. This study was guided by three critical questions: i) who are the Zimbabwean refugee learners? ii) what were Zimbabwean refugee learners' migration experiences? and iii) what were Zimbabwean refugee learners' school experiences? The study employed Bronfenbrenner's Social Ecological Model as its overarching theoretical framework. Each stage of the refugee experience was described at each point in time.

considers how policy measures, such as the Right to Education (RTE) Act in India, have failed to address the inequalities brought by medium in schools, and investigates questions on language access, inclusion, and rights. Drawing on extensive fieldwork and in-depth interviews, the book will be indispensable for students and scholars of anthropology, education studies, sociolinguistics, sociology, and South Asian studies. It will also appeal to those interested in language and education in South Asia, especially the role of language in the reproduction of inequality.

Assessing English Language Learners: Bridges to Educational Equity Margo Gottlieb. 2016-03-22

Build the bridges for English language learners to reach success! Ten years ago, the first edition of Margo Gottlieb's *Assessing English Language Learners* changed the dialogue about how educators envision educational equity for students. Since then, the ELL and dual language student populations have grown exponentially, and so has the need for forward-thinking and effective approaches to facilitating students' academic language development alongside their content knowledge. This thoroughly updated edition of Gottlieb's classic delivers a complete set of tools, techniques, and ideas for planning and implementing instructional assessment. The book includes: A focus on academic language use in every discipline, from mathematics to social studies, within and across language domains Emphasis on linguistically and culturally responsive assessment as a key driver for measuring academic achievement A reconceptualization of assessment as, for, and of learning Reflection questions to stimulate discussion around assessment policies and practices to maximize opportunities for teacher input and student engagement This book is an essential resource for pre-service and in-service teachers, educator teams, and school leaders striving toward equity in every classroom. In this exciting, practitioner-friendly volume, Margo Gottlieb shows us how assessment as, for, and of learning can provide a level playing field for today's language learners. Educators

working with English language learners will find this assessment-moxie book truly invaluable. —W. James Popham, Professor Emeritus University of California, Los Angeles There are no other books available that cover the topic of fair and equitable assessment practices for English learner as comprehensively as this one. Nor are there any other books with such a rich selection of tools readily available for practitioners. **Blended learning environments to foster self-directed learning** Christo van der Westhuizen, Mncedisi C. Maphalala, Roxanne Bailey. 2023-03-31 This book on blended learning environments to foster self-directed learning highlights the focus on research conducted in several teaching and learning contexts where blended learning had been implemented and focused on the fostering of self-directed learning. Several authors have contributed to the book, and each chapter provides a unique perspective on blended learning and self-directed learning research. From each chapter, it becomes evident that coherence on the topics mentioned is established. One of the main aspects drawn in this book, and addressed by several authors in the book, is the use of the Community of Inquiry (CoI) framework when implementing teaching and learning strategies in blended learning environments to foster self-directed learning. This notion of focusing on the CoI framework is particularly evident in both theoretical and empirical dissemination presented in this book. What makes this book unique is the fact that researchers and peers in varied fields would benefit from the findings presented by each chapter, albeit theoretical, methodological or empirical in nature - this, in turn, provides opportunities for future research endeavours to further the narrative of how blended learning environments can be used to foster self-directed learning.

Eisenclas.2020-06-22 Even a cursory look at conference programs and proceedings reveals a burgeoning interest in the field of social and affective factors in home language maintenance and development. To date, however, research on this topic has been published in piecemeal fashion, subsumed under the more general umbrella of 'bilingualism'. Within bilingualism research, there has been an extensive exploration of linguistic and psycholinguistic perspectives on the one hand, and educational practices and outcomes on the other. In comparison, social and affective factors - which lead people to either maintain or shift the language - have been under-researched. This is the first volume that brings together the different strands in research on social and affective factors in home language maintenance and development, ranging from the micro-level (family language policies and practices), to the meso-level (community initiatives) and the macro-level (mainstream educational policies and their implementation). The volume showcases a wide distribution across contexts and populations explored. Contributors from around the world represent different research paradigms and perspectives, providing a rounded overview of the state-of-the-art in this flourishing field.

Children's Multilingual Development and Education Alison L. Bailey,Anna V. Osipova.2015-12-03 The study of families and educators who successfully sustain children's linguistic resources is a novelty in current educational research, where focus has largely been on the development of students' English language skills. In this book, Alison L. Bailey and Anna V. Osipova provide a systematic

examination of the beliefs and practices of parents and educators who share the common goal of improving educational and social outcomes for multilingual children. Giving voice to parents and educators, they explore the strategies being devised to foster multilingualism and support its development both at home and in the classroom. This book presents new research findings and combines these with compelling firsthand accounts of the successes and concerns of both families and educators, making its content pertinent to a wide audience of researchers and a range of higher education courses.

*The Multilingual City* Lid King, Lorna Carson. 2016-01-26 This book is an exploration of the vitality of multilingualism and of its critical importance in and for contemporary cities. It examines how the city has emerged as a key driver of the multilingual future, a concentration of different, changing cultures which somehow manage to create a new identity. The book uses the recent LUCIDE multilingual city reports as a basis for discussion and analysis, and deals with both societal and individual multilingualism in a way that draws on the full range of their historical, contemporary, visual/audible, psychological, educational and policy-oriented aspects. The book will be of interest to students and researchers of multilingualism, migration studies, European Studies, anthropology, sociology and urbanism.

indigenous peoples as one of the most pressing problems facing humanity, posing moral, practical, and scientific issues of enormous proportions. Simply put, no area of the world is immune from language endangerment. The Oxford Handbook of Endangered Languages, in 39 chapters, provides a comprehensive overview of the efforts that are being undertaken to deal with this crisis. A comprehensive reference reflecting the breadth of the field, the Handbook presents in detail both the range of thinking about language endangerment and the variety of responses to it, and broadens understanding of language endangerment, language documentation, and language revitalization, encouraging further research. The Handbook is organized into five parts. Part 1, Endangered Languages, addresses the fundamental issues that are essential to understanding the nature of the endangered languages crisis. Part 2, Language Documentation, provides an overview of the issues and activities of concern to linguists and others in their efforts to record and document endangered languages. Part 3, Language Revitalization, includes approaches, practices, and strategies for revitalizing endangered and sleeping (dormant) languages. Part 4, Endangered Languages and Biocultural Diversity, extends the discussion of language endangerment beyond its conventional boundaries to consider the interrelationship of language, culture, and environment, and the common forces that now threaten the sustainability of their diversity. Part 5, Looking to the Future, addresses a variety of topics that are certain to be of consequence in future efforts to document and revitalize endangered languages.

*Effective Educational Programs, Practices, and Policies for English Learners* Liliana Minaya-Rowe. 2014-10-01 The central issue of this volume is how to meet the linguistic and academic needs of the increasing numbers of English learners (ELs). At the center of educational turns is the role of school professionals in this Common Core Standards era. Teacher education programs and

professional development, or pre-service and in-service programs for teachers of ELs, are currently being reframed to reflect the new demands placed on all teachers in light of the new standards. The expectation is that ELs can learn, and their teachers possess the expertise to teach, both discipline content and academic English at the same time. The large numbers of ELs across the country have created a wide gap between what teachers have been trained to do and the skills they need to teach and reach them effectively. This practical handbook brings together research, policy and practice on teacher effectiveness, pre-service and in-service programs in the context of student linguistic and cultural diversity. Key features include: • Clearly articulated teacher training and professional development programs; • Coverage of Common Core curriculum and a variety of instructional programs and practices with research-based tools to implement them; and, • Policies to equitably and effectively prepare ELs academically and linguistically.

Enhancing Student Education Transitions and Employability Thanh Pham, Behnam

Soltani. 2021-04-08 This book explores student education transition and employability negotiation experiences in various contexts. It explores determinants of student transitions at three levels including macro, meso and micro but focuses on exploring affordances, constraints and strategies at the micro level. The framework underpinning the explorations at the micro level covers a range of different forms of capital including human, culture, social, identity, psychological and agentic. The book is unique in three ways. First, it consists of chapters about critical discussion, empirical research and practical guidance about student transition experiences. The critical discussion and empirical research chapters explore and obtain insights about the complexity of student transitions and develop conceptual frameworks that guide the development of applicable practices. The book is, therefore, a useful resource for policy makers, institutions, academics, professionals and students.

Second, it provides insights about how student transitions are determined by a range of factors at different levels. These insights extend discussions about student transitions in the current literature which have mainly explored impacts of policies, institutional programmes and human capital. Finally, it is international in focus because it draws on research with different cohorts of students and graduates in different contexts. Insights provided in the book are, therefore, rich, diverse and comparative.
