Therefore, the ancients attached great importance to the observation of celestial phenomena. You can piece together the hidden fragments of riddle from this graphic novel comic style game... Tales of Terra Ocean Long before the distant past, Earth was an organic whole without form and void. A divine goddess named Pan Gu separated Earth from Heaven to form Terrestrial continents. Once every sixty six thousand six hundred and sixty six year, a disastrous scourge would be brought upon this land. Floods, drought, famines, earthquakes and disease epidemics spread through out Earth. Four Sages walked across the continents and discovered the myth of contrary forces, which were interconnected and interdependent in the dynamic natural cycle. Relying on absorbing the spirits of sun, moon, fire, water, wind and earth, an animating force was formed within stones which could summon the catastrophic destruction brought upon land but also able to preserve the existence of mankind. Weapons were forged with spiritual gemstones, passed down through generations and were called [Eternal Summoning Weapons of the Ancient]. As the plot progresses throughout this book, readers will be able to browse inside an ordinary youngster's extraordinary journey, retroactively entering the chronological time warp of paranormal summoning monsters, and witnessing a new era of fantasy stories. Beneath this shiny exterior, Burden Hill harbors dark and sinister secrets, and it's up to a heroic gang of dogs -- and one cat -- to protect the town from the evil forces at work. These are the Beasts of Burden Hill -- Pugs, Ace, Jack, Whitey, Red and the Orphan -- whose early experiences with the paranormal (including a haunted doghouse, a witches' coven, and a pack of canine zombies) have led them to become members of the Wise Dog Society, official animal agents sworn to protect their town from evil. This turns out to be no easy task, as they soon encounter demonic cannibal frogs, tortured spirits, a secret rat society, and a bizarre and deadly resurrection in the Burden Hill cemetery -- events which lead to fear and heartbreak as our four-legged heroes discover that the evil within Burden Hill is growing and on the move. **The Legend of Zelda. The History of a Legendary Saga Vol. 2** Valérie Précigout.2019-02-19 Continue the discovery of the famous game The Legend of Zelda! Featuring in the pantheon of video games, the Breath of the Wild episode of the mythical Zelda saga is fully covered in this new book. Following the first Chronicle volume of a legendary saga, this second part focuses exclusively on the episode Breath of the Wild, decrypting its references, its game system and the inspiration of its developers! EXTRACT Starting production on a title that sought to radically redefine the core elements of a franchise as iconic as The Legend of Zelda involved a certain amount of risk for Nintendo. To fully understand the situation, we feel it is essential to start by determining what was

really at stake in this challenging effort by looking at the many promises that *The Legend of Zelda: Breath of the Wild* carried with it from the earliest announcement of its development until the moment it was released. With this perspective in mind, we will first step back in time to examine any clues potentially found in other recent installments of the franchise as to the creators' desire to rethink the game's most basic conventions. We will then consider what fans were expecting from this attempt to go back to basics and revive the ambitions of the original *Legend of Zelda*. We will also look at Nintendo's communications strategy by way of the trailers and other official presentations that were used to introduce the game, and consider the credibility of *Breath of the Wild*'s claim to innovation in its approach to the open world genre. Of course, we will also focus considerable attention on director Hidemaro Fujibayashi's history with the series, and listen to the development team's thoughts as we attempt to better understand the origins of this latest *Zelda* game. We then close the chapter with a look at initial reactions from fans and video game journalists when the game was first released on March 3, 2017.

ABOUT THE AUTHOR Better known by her pseudonym Romendil, Valérie Précigout spent 15 years as a journalist for *Jeuxvideo.com*, Europe's largest video game website. A fan of Japanese RPGs, she managed to establish herself as an online critic when the Internet was still struggling to keep up with print media. She loves manga culture and Japanese leisure activities and shares her impressions about video-gaming news at *Extralife.fr*. She is also the author of *Dragon Ball: The Tribute*, from the Force label at Third Éditions, and contributes articles to the *Level Up* book series from the same publisher.
