The Emergency Medical Responder Christian Ventura,Edward Denton,Emily Van Court.2021-01-19 Emergency medical service providers serve as the primary immediate response to emergencies of all kinds, including natural disasters and acts of terrorism in the United States, with states serving as the regulatory agencies responsible for training, scope of practice, and continuing education for potential and working EMS providers. This text serves as a comprehensive guide to individuals in training to become emergency medical service providers and complements Emergency

Medical Technician (EMT) and Emergency Medical Responder (EMR) courses as the primary classroom text consistent with National EMS Curriculum Standards and other industry guidelines. Each chapter addresses a relevant organ system and its physiology, methods of assessment, treatment recommendations, along with a case study to illustrate the topics at hand. So much of what is involved in emergency medical services is based on practical and applicable knowledge of situations, and these case studies will provide students with exposure to the field work they will be responding to. Written with the context of COVID-19 implications in mind, this is first EMT text of its kind produced after the onset of the pandemic, with considerations and citations from national and international emergency medicine journals to incorporate guidelines and best-practices in light of shifting conditions and expectations.

First Responder Jennifer Murphy.2021-04-06 One woman's incredible story of life on the front lines as an emergency medical worker in New York City. On the streets of New York City, EMTs and paramedics do more than respond to emergencies; they eat and drink together, look out for each other's safety, mercilessly make fun of one another, date one other, and, most crucially, share terrifying experiences and grave injustices suffered under the city's long-broken EMS system. Their loyalty to one another is fierce and absolute. As Jennifer Murphy shows in the gripping and moving First Responder, they are a family. A dysfunctional family, perhaps, but what family isn't? Many in the field of pre-hospital emergency care have endured medical trauma and familial hardship themselves. Some are looking to give back. Some are desperate for family. Some were inspired by 9/11. Still others want to become doctors, nurses, firefighters, cops, and want to cut their teeth on the streets. As rescuers, they never want people to die or get hurt. But if they are going to die or get hurt, first responders want to be there. Despite the vital role they play New York City, EMTs are paid less than trash collectors, and far less than any other first responder makes, even though the burden of medical emergencies fall on the backs of EMTs and medics. Yet for Jennifer and her brothers and sisters, it's a calling more than a job. First responders are constantly exposed to infectious diseases, violence, and death. The coronavirus pandemic did not change that math; the public is just more aware of it. After 9/11, EMT training schools experienced a surge in applications from civilians wanting to become first responders, inspired by rescuers who responded to the terrorist attacks and rushed into the burning towers when everyone else ran out. The same will almost certainly be true post-coronavirus as people are moved by a desire to help in times of crisis in a more direct way. Funny and heartwarming, inspiring and poignant, First Responder follows Jennifer's journey to becoming an EMT and working during and beyond the Covid-19 pandemic. She will bring readers inside an intense world filled with crisis, rescue, grief, uncertainty, and dark humor. First Responder will move readers to a greater understanding and appreciation of those fighting for

them—wherever they live—in a world they hardly know or could imagine.
