Multiculturalismo, Cine Mexicano E Identidad Raciél Damón Martínez Gómez.2011-07 La comunicación se ha constituido en una referencia obligada para la ciencia social. Su importancia estriba en que cada vez es más alta su incidencia en los procesos sociales contemporáneos. Se le podría adjudicar dicha omnipresencia al aceleramiento económico que, precisamente, impulsa la globalización. A mitad del siglo pasado se debatió con acritud la influencia que podrían tener los mass media. Sin embargo, la mirada se ha complejizado en torno a los epifenómenos comunicativos que no sólo ni exclusivamente se remiten a la relación causa y efecto. Hoy día la sociología y la antropología aportan puntos de vista interesantes para comprender la hegemonía mediática. El libro analiza algunas líneas sobre la representación de la identidad de las minorías en el Nuevo Cine Mexicano, como sedimento rutinario de esa paradójica red que se articula entre los medios y los grupos hegemónicos a través de un imaginario colectivo que prácticamente se convierte en un

espacio en donde interactúa la condición multicultural.

Egypt Dietrich Wildung.2001 The architecture of the pharaohs represents some of the most impressive creative work ever produced in Egyptian art and yet it has never been completely assessed. This volume is a singularly complete record of the architecture of the pharaohs and its sphere of influence ranging from 3000 B.C. to the Egyptian style of today, from the Sudan to the Mediterranean, and from simple clay brick buildings to monumental pyramids -- a very special kind of journey through Egypt. Don't Know Much About the Bible Kenneth C. Davis.2009-03-17 With wit, wisdom, and an extraordinary talent for turning dry, difficult reading into colorful and realistic accounts, the creator of the bestselling Don't Know Much About®, series now brings the world of the Old and New testaments to life as no one else can in the bestseller Don't Know Much About® The Bible. Relying on new research and improved translations, Davis uncovers some amazing questions and contradictions about what the Bible really says. Jericho's walls may have tumbled down because the city lies on a fault line. Moses never parted the Red Sea. There was a Jesus, but he wasn't born on Christmas and he probably wasn't an only child. Davis brings readers up-to-date on findings gleaned from the Dead Sea Scrolls and Gnostic Gospels that prompt serious scholars to ask such serious questions as: Who wrote the Bible? Did Jesus say everything we were taught he did? Did he say

more? By examining the Bible historically, Davis entertains and amazes, provides a much better understanding of the subject, and offers much more fun learning about it.

The Naked Woman Armonía Somers.2018-11-01 A woman's feminist awakening drives a hypocritical village to madness in rural Uruguay in this wild, brutal paean to freedom (NPR.org). Shortlisted for the National Translation Award Somers' feminism is profound, and complicated. —NPR.org “A surreal, nightmarish book about women's struggle for autonomy—and how that struggle is (always, inevitably) met with violence.” —Carmen Maria Machado, author of *Her Body and Other Parties* When *The Naked Woman* was originally published in 1950, critics doubted a woman writer could be responsible for its shocking erotic content. In this searing critique of Enlightenment values, fantastic themes are juxtaposed with brutal depictions of misogyny and violence, and frantically build to a fiery conclusion. Finally available to an English-speaking audience, Armonía Somers will resonate with readers of Clarice Lispector, Djuna Barnes, and Leonora Carrington.

The Egyptian Mika Waltari.2021-11-05T00:00:00Z First published in the 1940s and widely condemned as obscene, The Egyptian outsold every other American novel published that same year, and remains a classic; readers worldwide have testified to its life-changing power. It is a full-bodied re-creation of a largely forgotten era in the world's history: an Egypt when pharaohs contended with the near-collapse of history's greatest empire. This epic tale encompasses the whole of the then-known world, from Babylon to Crete, from Thebes to Jerusalem, while centering around one

Disconnected Marina Bassi, Matías Busso, Sergio Urzúa, Jaime Vargas. 2012-01-01 Disconnected is a path-breaking analysis of the relationship between schooling and employers in Latin America. It is sophisticated in its design, using multiple surveys and multiple methods. It distinguishes carefully among different types of skills and the relationship of each type to employment outcomes and employer needs. It examines both the demand and the supply side of the labor market. And it provides guidance for further work. We commend this book to all readers, scholars, and practitioners concerned with schooling and job markets in Latin America.

Culture, Health and Sexuality Peter Aggleton, Richard Parker, Felicity Thomas. 2015-04-24 The last twenty years have seen a growth in multi-disciplinary work in the area of sexuality, culture and health. What was once a set of specialist concerns has been steadily mainstreamed. Alongside this, a broader interest has developed in 'social' and 'cultural' factors relating to sexuality and sexual health, from family planning and STI management to gender and intimate partner violence and the

The Daughter of Time Josephine Tey.2023-11-10 Alan Grant, Scotland Yard Inspector is feeling bored while confined to bed in hospital with a broken leg. Marta Hallard, an actress friend of his, suggests that he should amuse himself by researching a historical mystery. She brings him some pictures of historical characters, aware of Grant's interest in human faces. He becomes intrigued by a portrait of King Richard III. He prides himself on being able to read a person's character from his appearance, and King Richard seems to him a gentle, kind and wise man. Why is everyone so sure that he was a cruel murderer? With the help of other friends and acquaintances, Grant investigates Richard's life and the case of the Princes in the Tower, testing out his theories on the doctors and nurses who attend to him. Grant spends weeks pondering historical information and documents with the help of Brent Carradine, a likable young American researcher working in the British Museum. Using his detective's logic, he tries to come to the conclusion whether the claim of Richard being a murderer is a fabrication of Tudor propaganda, or was he really a monstrous hunchback. The Daughter of Time was voted greatest mystery novel of all time by the Crime Writers' Association in 1990.

or suppressed scientific research, including Immanuel Velikovsky, Nikola Tesla, Rupert Sheldrake, and Masaru Emoto • Edited by Atlantis Rising publisher, J. Douglas Kenyon Following the model of his bestselling Forbidden History and Forbidden Religion, J. Douglas Kenyon has assembled from his bimonthly journal, Atlantis Rising, material that explores science and technology that has been suppressed by the orthodox scientific community--from the true function of the Great Pyramid and the megaliths at Nabta Playa to Immanuel Velikovsky's astronomical insights, free energy from space, cold fusion, and Rupert Sheldrake's research into telepathy and ESP. There is an organized war going on in science between materialistic theory and anything that could be termed spiritual or metaphysical. For example, Masaru Emoto's research into the energetics of water, although supported by photographic evidence, has been scoffed at by mainstream science because he has asserted that humans affect their surroundings with their thoughts. The materialism or absolute skepticism of the scientific establishment is detrimental to any scientific inquiry that thinks outside the box. This mentality is interested in preserving funding for its own projects, those that will not rock the establishment. From Tesla's discovery of alternating current to Robert Schoch's re-dating of the Sphinx, this book serves as a compelling introduction to the true history of alternative and New Science research.

Climate Change and Development Thomas Tanner, Leo Horn-Phathanothai. 2014-01-10 The evidence for human-induced climate change is now overwhelming, the brunt of its impacts is already being felt by poor people, and the case for urgent action is compelling. This book addresses the two greatest challenges of our time - averting catastrophic climate change and eradicating poverty - and the close interconnections between them. Climate Change and Development provides a comprehensive and multi-disciplinary foundation for understanding the complex and tangled

relationship between development and climate change. It argues that transformational approaches are required in order to reconcile poverty reduction and climate protection and secure sustained prosperity in the twenty first century. Section One provides the building blocks for understanding climate science and the nexus between climate and development. Section Two outlines responses to climate change from the perspective of developing countries, with chapters on international agreements, climate change mitigation and adaptation, and climate finance. Each chapter offers analytical tools for evaluating responses, enabling readers to ask smart questions about the climate change and development nexus as policy and action evolve in the coming years. The last three chapters of the book, contained in Section Three, are forward looking and focus on why and how development must be re-framed to deliver more equitable and sustainable outcomes. This section sets out different critiques of 'development-as-usual' and explores alternative paradigms of development in a warming and resource-constrained world. This is an invaluable and clearly written text that uses real world examples to bring to life perspectives from across different disciplines. It also contains chapter learning outcomes, and end of chapter summaries, discussion questions, and suggestions for further reading and relevant websites. The text is suitable for both undergraduate and postgraduate students, as well as those working in international development contexts who wish to get to grips with this pressing global challenge.

Ageing in Developing Countries Ken Tout.1989 The increasing life expectancy seen in developing countries has coincided with massive migrations due to urbanization, industrialization, and disasters, both natural and man-made, causing acute physical and psychological suffering for many old people and their dependents. Tout takes the first in-depth look at this phenomenon and proposes a new approach to the special needs of the elderly in developing countries. Describing successful national programs already in place for the elderly, he highlights lesser-known difficulties, such as the responsibilities grandmothers may have to assume in the face of heterosexually-transmitted AIDS, and the consequences of the disintegration of the traditional extended family in countries too poor to provide pension schemes.

El Misterio de Maat, Diosa de la Justicia en el Antiguo Egipto Anna MANCINI.2004-03 Desde los comienzos de la egiptología, los especialistas no pararon de acumular textos que hablan de Maat, diosa egipcia de la justicia. A pesar de toda esta documentación, Maat sigue siendo un misterio para ellos. Hasta la fecha dicen no saber lo que es exactamente la Maat. Un trabajo notable de desciframiento de los textos fue realizado por la ciencia egiptológica, pero en este campo, nadie ha sacado partido de los conocimientos de la historia de los derechos antiguos. Del mismo modo, nadie ha aprendido a observar las imágenes y aún menos a entender los símbolos. La imagen de la cubierta de este libro contiene, por sí sola ,uno de los más antiguos secretos de la civilización egipcia que nos ha llegado intacto. Verdadera investigación, este libro saca partido de todos los indicios acumulados por los egiptólogos en relación con Maat. Villa to Village Riccardo Francovich, Richard Hodges. 2003-09-25 Villa to Village challenges the historical view that hilltop villages in Italy were first founded in the tenth century. Drawing upon recent excavations, the authors show that the makings of the medieval village lie in the demise of the Roman villa in late antiquity. The book describes the lively debate between archaeologists and historians on this issue. It also examines the evidence for the first manorial villages of the Carolingian era and describes how these were transformed into the familiar feudal villages that are characteristic of much of Italy. Useful maps, plans and reconstructions illustrate this useful text.

My Glorious Brothers Howard Fast. 2011-11 For years, the people of Judea suffered under the oppressive rule of King Antiochus and the Syrian-Greeks. Under his reign, Jews were massacred and Judaism was effectively outlawed. Fed up with the injustices, peasant farmer Judas Maccabee and his brothers lead a revolt against the king and mold the people of Judea into an army. Judas' older brother Simon stands beside him as his faithful lieutenant and second in command. But while these brothers are united in ideals on the field of battle, their love of the same woman threatens to tear them apart.

The Marquis de Gange The Marquis de Sade, Will McMorran. 2021-10-08 'It is time to die, Madame: there shall be no mercy for you..!' It was one of the most shocking crimes of the seventeenth century, and would provide Sade with the inspiration for the last novel he published. The beautiful and virtuous Euphrasie, admired by the King himself, falls in love with the young and handsome Alphonse, Marquis de Gange. Within the forbidding walls of his castle in Provence,

however, sinister forces are conspiring against the young couple. Alphonse's brothers, the Abbé and the Chevalier, want Euphrasie for themselves. Published in English for the first time, *The Marquise de Gange* is a neglected Gothic classic by one of the most notorious authors in the literary canon. Although a departure from his earlier pornographic and libertine works, beneath the novel's thin veneer of respectability lurks the same subversive presence of an author plotting against virtue in distress.

Differences brings together ten essays written over the past decade by the distinguished Spanish architect and theorist Ignasi de Sola-Morales. Many of the essays have never previously been translated, and the author has provided a new introduction especially for this English edition. Contemplating the panorama of contemporary art and architecture, de Sola-Morales posits that there is no one way to describe today's practice; instead he concentrates on elucidating the present dynamic of contrast, diversity, and tension. In an unorthodox pairing, de Sola-Morales derives his inspiration from both phenomenology and Deleuzean poststructuralism. Combining these philosophical inheritances allows him to reinvoké the human subject without referring to classical humanism or announcing the death of the object. His retrospective review of the disciplines of art and architecture, particularly as they have developed since World War II, provokes him to design, draft, and ultimately build a description of Modernism's lineage of subjectivity. The result is a provocative construction of fluid topographies that articulate, rather than depict, the shaky ground on which our current artistic and architectural production rests. Daughters of Isis Joyce Tyldesley.1995-03-30 In ancient Egypt women enjoyed a legal, social and sexual independence unrivalled by their Greek or Roman sisters, or in fact by most women until the late nineteenth century. They could own and trade in property, work outside the home, marry foreigners and live alone without the protection of a male guardian. Some of them even rose to rule Egypt as 'female kings'. Joyce Tyldesley's vivid history of how women lived in ancient Egypt weaves a fascinating picture of daily life - marriage and the home, work and play, grooming and religion - viewed from a female perspective, in a work that is engaging, original and constantly surprising.

The Fires of Autumn Irene Nemirovsky.2015-03-17 This panoramic exploration of French life between the wars reads like a prequel to Irène Némirovsky's international bestseller Suite Française. At the end of the First World War, Bernard Jacquelain returns from the trenches a changed man. Broken by the unspeakable horrors he has witnessed, he becomes addicted to the lure of wealth and success. He wallows in the corruption and excess of post-war Paris, but when his lover abandons him, Bernard turns to a childhood friend for comfort. For ten years, he lives the good bourgeois life, but when the drums of war begin to sound again, everything around which he has rebuilt himself starts to crumble, and the future—of his marriage and of his country—suddenly

becomes terribly uncertain. Written after Némirovsky fled Paris in 1940, just two years before her death, and first published in France in 1957, *The Fires of Autumn* is a coruscating, tragic novel of war and its aftermath, and of the ugly color it can turn a man's soul.

Literacies Across Media Margaret Mackey.2007-01-26 The contemporary young reader learns from a very early age to read and interpret through a broad range of media. *Literacies Across Media* explores how a group of boys and girls, aged from ten to fourteen, make sense of narratives in a variety of formats, including print, electronic book, video, DVD, computer game and CD-ROM. This book records these young people over a period of eighteen months as they read, view and play different texts, demonstrating variations and consistencies of interpretative behaviour across different media. Margaret Mackey analyses how the activities of reading, viewing and playing intertwine and affect each other's development. Her in-depth research shows young readers developing strategies for interpreting narratives through encounters with a diverse range of texts and media. The study breaks new ground in its illustration and exploration of the impact of cross-media fertilisation on how young readers come to an understanding of how to make sense of stories. *Literacies Across Media* offers both a vivid account of a group of young readers coming to terms with texts and a radical perspective on the growth of a generation of young readers. It is thought-
